

LED Ampel-Alu Design

Seite 1 von 1

Online Infos

Dat enblatt LED Ampel Alu design

- Kombination aus Aluminiumgehäuse und Fronten aus UV-stabilisiertem Polycarbonat
- hohe Stabilität gegen Vandalismus
- vertikale und horizontale Montage möglich
- erhältlich in 200mm / 300mm
- Optik: Unsere Futurled Einsätze

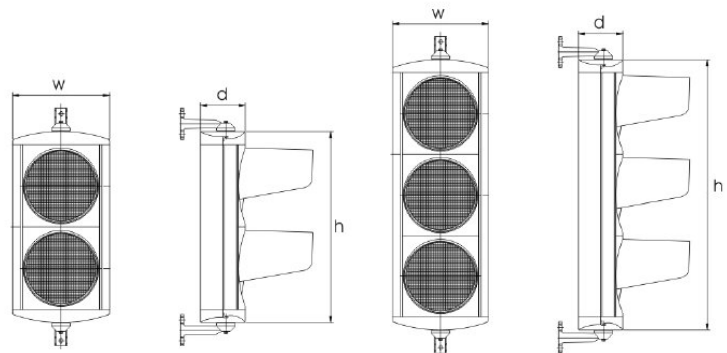

Beschreibung

Die innovative Alu-Design ist eine LED - basierende Ampel aus Aluminium

DIMENSIONEN

Linsen- durchmesser	Anzahl Kammern	w / h / d [mm]
------------------------	-------------------	----------------

210 mm	1	300 / 330 / 135
	2	300 / 570 / 135
	3	300 / 810 / 135
300 mm	1	390 / 434 / 180
	2	390 / 764 / 180
	3	390 / 1094 / 180

TECHNISCHE DETAILS

Material	a combination of aluminium housing and UV-stabilized polycarbonate front
Diameters	210/300 mm aspects: 1, 2, 3 as standard; more aspects on request
Optic	210 / 300 mm FUTURLED (see separate folder)
Impact resistance	High (Class IR3 acc. to EN 60598-1)
Ingress protection	Water- and dust-proof (IP54) – EN 60529
Certified	in accordance with EN12368 CE certification obtained
Protection classification	Class II – double or reinforced insulation

Housing colours	grey-blue (■ RAL 5008)	
	pebble-grey (■ RAL 7032)	
Housing colours	fir-green (■ RAL 6009)	
	brilliant aluminium (■ RAL 9006)	
	grey aluminium (■ RAL 9007)	
	black (■ RAL 9005)	
	black-grey (■ RAL 7021)	
	graphite-grey (■ RAL 7024)	
	basalt-grey (■ RAL 7012)	
	blue-grey (■ RAL 7031)	
	other colours on request	
	Variation options	Mounting: two point fixing/mounting by means of brackets in different lengths of 105 mm, 183 mm, 240 mm, for L-shaped brackets as well as for T-shaped brackets
		one point fixing/mounting, either on top of a pole or hanging from a cantilever DSI bracket
two point fixing/mounting on cantilever bracket backing		
Boards: special lateral profiles available for fixation of backing boards
